

Terms of Purchase

Definition of Investors: We provide directories of potential private equity investors. These are investor classes that are known to be active in investing in private equity. We do not guarantee that every single contact in these directories will want to invest in private equity but we do know that these types of investors commonly invest in private equity so our directories can save you a lot of time.

Refunds: Any entry which is determined to be outdated (invalid), or does not fit the above definition of a potential private equity investor will result in a pro-rated refund for 4x your money for that entry, or those entries. For example if 10% of the database is made up of non-private equity firms the client is to receive a 40% refund on their purchase. In order to receive this refund you must let our team know exactly which entries are in error so we can continue to improve this resource, no refunds are provided without feedback on what was wrong with the database. This is our commitment to delivering a highly valuable product to you.

Ongoing Update: Ongoing database updates are available for \$199/6 months

Use: Each version and single Excel based Private Equity Investor Directory has been invisibly marked, protected, and is copyrighted material. Any duplication, extraction, or use in commercial ventures is strictly prohibited. That said, this database is provided within Excel format and the time length term of use is unlimited, this database does not expire and access to these details within Excel are never blocked after any length of time.
